SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **CDPH Statewide Travel Advisory**

The California Department of Public Health (CDPH) has issued a new Travel Advisory superseding the 11/13/20 guidance. Californians should avoid non-essential travel to any part of California more than 120 miles from one's place of residence, or to other states or countries. Non-essential travelers from other states or countries are strongly discouraged from entering California, and if they do, should adhere to quarantine procedures. All persons arriving in or returning to California from other states or countries should self-quarantine for 10 days after arrival, except as necessary to meet urgent critical healthcare staffing needs or engage in emergency response.

WEATHER KEY POINTS

02/14/21 - 02/20/21

Sunday-Monday

- Rain and mountain snow return to northern and central California today and tonight before gradually tapering off later Monday
 - Snow levels around 4,500 feet over northeast California initially but rising to around 6,000 feet over all of northern California this evening and tonight
 - Very wet snowfall of 2 to locally 6 inches expected above 4,500 feet
- Gusty winds of 40-50 mph continue over southern California today, slowly subsiding tonight
- Gusty conditions return to northeast California, the Sierra, and southern California mountains on Monday, with gusts of 40-60 mph again expected

Tuesday-Wednesday

- No significant weather impacts are expected as mainly dry conditions return, though a couple showers will be possible across northwest California and perhaps even southern California on Tuesday.. However, gusty winds of 30-40 mph will continue over the southern California mountains both days.

Thursday-Saturday

- Additional rounds of rain and mountain snow are expected to develop across mainly northern California
- The exact details (timing of precipitation and amounts) remain somewhat uncertain at this time
